This document is not an ASTM standard and is intended only to provide the user of an ASTM standard an indication of what changes have been made to the previous version. Because it may not be technically possible to adequately depict all changes accurately, ASTM recommends that users consult prior editions as appropriate. In all cases only the current version of the standard as published by ASTM is to be considered the official document.

Designation: C 1152/C 1152M – ~~97~~03

Standard Test Method for Acid-Soluble Chloride in Mortar and Concrete[1]

This standard is issued under the fixed designation C 1152/C 1152M; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ϵ) indicates an editorial change since the last revision or reapproval.

[1] This test method is under the jurisdiction of ASTM Committee ~~C-9~~ C09 on Concrete and Concrete Aggregates and is the direct responsibility of Subcommittee C09.69 on Miscellaneous Tests.

Current edition approved ~~Jan. 10, 1997.~~ Dec. 1, 2003. Published ~~March 1997.~~ January 2004. Originally ~~published as C 1152 – 90.~~ approved in 1990. Last previous edition approved in 1997 as C 1152 – 9~~0~~7.
