This document is not an ASTM standard and is intended only to provide the user of an ASTM standard an indication of what changes have been made to the previous version. Because it may not be technically possible to adequately depict all changes accurately, ASTM recommends that users consult prior editions as appropriate. In all cases only the current version of the standard as published by ASTM is to be considered the official document.

Designation: D ~~3558 – 94 (Reapproved 1998)~~ 3558 – 03

Standard Test Methods for Cobalt in Water [1]

This standard is issued under the fixed designation D 3558; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ϵ) indicates an editorial change since the last revision or reapproval.

This standard has been approved for use by agencies of the Department of Defense.

[1] These test methods are under the jurisdiction of ASTM Committee D-19 on Water and are the direct responsibility of Subcommittee D19.05 on Inorganic Constituents in Water.

Current edition approved ~~Sept. 15, 1994.~~ June 10, 2003. Published ~~November 1994.~~ July 2003. Originally ~~published as D 3558 – 77.~~ approved in 1977. Last previous edition approved in 1998 as D 3558 – 9~~0~~4 (1998).
