

Designation: A 351/A 351M – 003

An American National Standard
Used in USDOE-NE Standards

Standard Specification for Castings, Austenitic, Austenitic-Ferritic (Duplex), for Pressure-Containing Parts¹

This standard is issued under the fixed designation A 351/A 351M; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

This standard has been approved for use by agencies of the Department of Defense.

¹ This specification is under the jurisdiction of ASTM Committee A01 on Steel, Stainless Steel, and Related Alloys and is the direct responsibility of Subcommittee A01.18 on Castings.

Current edition approved ~~Sept. May~~ 10, 20003. Published ~~October 2000~~ June 2003. Originally published as A 351–52 T, approved in 1952. Last previous edition A 351/A 351M–94a (1999), approved in 2000 as A 351/A 351M–00.
