

Designation: C 476 – 012

Standard Specification for Grout for Masonry¹

This standard is issued under the fixed designation C 476; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

This standard has been approved for use by agencies of the Department of Defense.

1. Scope*

1.1 This specification covers two types of grout, fine and coarse grout, for use in the construction of masonry structures. Grout is specified by (1) proportions or (2) strength requirements.

1.2 The text of this specification references notes and footnotes that provide explanatory material. These notes and footnotes (excluding those in tables and figures) shall not be considered as requirements of this specification.

2. Referenced Documents

2.1 ASTM Standards:

C 5 Specification for Quicklime for Structural Purposes²

¹ This specification is under the jurisdiction of ASTM Committee C12 on Mortars and Grouts for Unit Masonry and is the direct responsibility of Subcommittee C12.05 on Grout and Grout Admixtures for Masonry.

Current edition approved Jan. 10, 2004. Published February 2004. Originally published as C 476–61T. Last previous edition C 476–9902.

***A Summary of Changes section appears at the end of this standard.**
