

**Designation: C 663 – 98 (Reapproved 2003)<sup>ε1</sup>**

## **Standard Specification for Asbestos-Cement Storm Drain Pipe<sup>1</sup>**

This standard is issued under the fixed designation C 663; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

*This standard has been approved for use by agencies of the Department of Defense.*

---

<sup>ε1</sup> NOTE—Warning notes were editorially moved into the standard text in July 2003.

---

### **1. Scope**

1.1 This specification covers asbestos-cement pipe intended for use in storm-water drainage of highways, airports, farms, foundations, and other similar drainage systems.

1.2 The values stated in SI units are to be regarded as the standard. The values stated in parentheses are for information only.

1.3 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use. See Note 2 7.2 for a specific hazard statement.*
