

Designation: C 1479 – 00^{ε1}

Standard Practice for Installation of Precast Concrete Sewer, Storm Drain, and Culvert Pipe Using Standard Installations¹

This standard is issued under the fixed designation C 1479; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

¹ NOTE—~~Corrected title, scope, 8.3, 15.2, and figure captions editorially in January 2001.~~

1. Scope

1.1 This practice covers the installation of precast concrete pipe intended to be used for the conveyance of sewage, industrial wastes, and storm water and for the construction of culverts.

1.2 ~~This practice does not have a metric companion, therefore see IEEE/ASTM SI 10 for conversion purposes.~~

1.3 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.*

2. Referenced Documents

2.1 *ASTM Standards:*

¹ This practice is under the jurisdiction of ASTM Committee C13 on Concrete Pipe and is the direct responsibility of Subcommittee C13.05 on Least Cost Analysis. Current edition approved ~~June~~ July 10, 2000¹. Published ~~September 2000~~ August 2001. Originally published as C 1479 - 00. Last previous edition C 1479 - 00^{ε1}.
