

Designation: D 75—97 — 03

American Association State
Highway and Transportation
Officials' Standard
AASHTO No.: T2

Standard Practice for Sampling Aggregates¹

This standard is issued under the fixed designation D 75; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

This standard has been approved for use by agencies of the Department of Defense.

1. Scope*~~Scope~~

1.1 This practice covers sampling of coarse and fine aggregates for the following purposes:

- 1.1.1 Preliminary investigation of the potential source of supply,
- 1.1.2 Control of the product at the source of supply,
- 1.1.3 Control of the operations at the site of use, and
- 1.1.4 Acceptance or rejection of the materials.

NOTE 1—Sampling plans and acceptance and control tests vary with the type of construction in which the material is used. Attention is directed to Practices E 105 and D 3665.

1.2 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.*

2. Referenced Documents

2.1 *ASTM Standards:*

¹ This practice is under the jurisdiction of ASTM Committee ~~D-4~~ D04 on Road and Paving Materials and is the direct responsibility of Subcommittee D04.30 on Methods of Sampling.

Current edition approved Oct. 10, 1997; 2003. Published April 1998; September 2003. Originally published as D 75—20 T, approved in 1920. Last previous edition D 75—87 (1992)^{ε1}; approved in 1997 as D 75—97.

*A Summary of Changes section appears at the end of this standard.
