

Designation: D 1508 – 02^{€1}

Standard Test Method for Carbon Black, Pelleted Fines and Attrition¹

This standard is issued under the fixed designation D 1508; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (€) indicates an editorial change since the last revision or reapproval.

€¹ NOTE—Section 7.1.4 was editorially updated in December 2002.

1. Scope

1.1 This test method covers the determination of the fines and attrition of pelleted carbon black.

1.2 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.*

2. Referenced Documents

2.1 *ASTM Standards:*

¹ This practice is under the jurisdiction of ASTM Committee D24 on Carbon Black and is the direct responsibility of Subcommittee D24.51 on Carbon Black Pellet Properties.

Current edition approved ~~Dec. Nov. 10, 2004~~². Published ~~February~~ December 2002. Originally published as D 1508–57 T, approved in 1957. Last previous edition approved in 2001 as D 1508–99⁰¹.
