

Designation: D 3333 – 9501

Standard Practice for Sampling ~~Man-Made~~ Manufactured Staple Fibers, Sliver, or Tow for Testing¹

This standard is issued under the fixed designation D 3333; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This practice covers a procedure for the division of shipments of ~~man-made~~ manufactured staple fiber, sliver (or top) or tow into lots and the sampling of such lots for testing.

NOTE 1—For sampling yarns, refer to Practice D 2258.

¹ This practice is under the jurisdiction of ASTM Committee D-13 on Textiles and is the direct responsibility of Subcommittee D13.578 on Fiber Yarn Test Methods, General.

Current edition approved ~~May 15, 1995~~ April 10, 2001. Published ~~July 1995~~ June 2001. Originally published as D 3333 – 74 T. Last previous edition D 3333 – 945.
