

Designation: D 3475 – 03a

Standard Classification of Child-Resistant Packages¹

This standard is issued under the fixed designation D 3475; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

- 1.1 This classification covers various types of child-resistant packages.
- 1.2 The examples for each type of child-resistant packaging are not intended to be all-inclusive, but are included only as an aid in the understanding and comprehension of each type of classification.
- 1.3 Listings are not to be considered endorsements or approval of the package by ASTM.

2. Terminology

2.1 *Definitions of Terms Specific to This Standard:*

2.1.1 *child-resistant package*— as defined by the *Poison Prevention Packaging Act*, packaging that is designed or constructed to be significantly difficult for children under five years of age to open or obtain a toxic or harmful amount of the substance contained therein within a reasonable time, and not difficult for normal adults to use properly, but does not mean packaging which

¹ This classification is under the jurisdiction of ASTM Committee D10 on Packaging and is the direct responsibility of Subcommittee D10.31 on Child-Resistant Packaging

Current edition approved April 10, Oct. 1, 2003. Published June December 2003. Originally approved in 1976. Last previous edition approved in 2000¹ as ~~D 3475 – 00~~¹.
