

Designation: D 3903 – 003

Standard Specification for Rubber Seals Used in Air-Heat Transport of Solar Energy Systems¹

This standard is issued under the fixed designation D 3903; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This specification covers the general requirements for the rubber seals used in solar energy systems employing air-heat transport. Examples are duct and damper seals. Particular applications may necessitate other requirements that would take precedence over these requirements when specified.

¹ This specification is under the jurisdiction of ASTM Committee D11 on Rubber and is the direct responsibility of Subcommittee D11.36 on Seals.

Current edition approved ~~May~~ June 10, 20003. Published ~~May 2000~~ June 2003. Originally published as D 3903-80; approved in 1980. Last previous edition ~~D 3903-85~~ (1997)^{ε1}, approved in 2000 as D 3903-00.
