

Designation: E 1367 – 9903

Standard Guide Test Method for Conducting 10-day Static Sediment Measuring the Toxicity T of Sediment-Associated Contaminants with Marine and Estuarine Amphipods and Marine Invertebrates¹

This standard is issued under the fixed designation E 1367; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

¹ This guide test method is under the jurisdiction of ASTM Committee E-47 on Biological Effects and Environmental Fate and is the direct responsibility of Subcommittee E47.03 on Sediment Assessment and Toxicology.

Current edition approved April 10, 1999; Nov. 1, 2003. Published July 1999; February 2004. Originally published as E 1367 – 90. Last previous edition E 1367 – 929.
