

Designation: E 1445 – 02³

Standard Terminology Relating to Hazardous Hazard Potential of Chemicals¹

This standard is issued under the fixed designation E 1445; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This standard is a compilation of terminology used in the area of hazard potential of chemicals. Terms that are generally understood or adequately defined in other readily available sources are not included.

1.2 Although some of these definitions are general in nature, many must be used in the context of the standards in which they appear. The pertinent standard number is given in parentheses after the definition.

1.3 In the interest of common understanding and standardization, consistent word usage is encouraged to help eliminate the major barrier to effective technical communication.

2. Referenced Documents

2.1 *ASTM Standards:*

¹ This terminology is under the jurisdiction of ASTM Committee E27 on Hazard Potential of Chemicals and is the direct responsibility of Subcommittee E27.01 on Editorial and Nomenclature.

Current edition approved ~~June~~ July 10, 2002³. Published September 2002³. Originally published as E 1445 – 91, approved in 1991. Last previous edition approved in 2002 as E 1445 – 98⁰².
