

Designation: E 1804 – 9602

An American National Standard

## Standard Practice for Performing and Reporting Cost Analysis During the Design Phase of a Project<sup>1</sup>

This standard is issued under the fixed designation E 1804; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

### 1. Scope

- 1.1 This practice covers an arranged method for providing cost analysis during the design phase of buildings.
- 1.2 The use of this practice increases the level of communication between the design professional, owner, and the cost professional providing the cost consulting services.
- 1.3 The practice establishes a structured method to support design decisions.
- 1.4 The practice provides design and cost professionals with a framework for historically tabulating information to be used on relevant future projects.

### 2. Referenced Documents

- 2.1 *ASTM Standards:*

<sup>1</sup> This practice is under the jurisdiction of ASTM Committee E-6 E06 on Performance of Buildings and is the direct responsibility of Subcommittee E06.81 on Building Economics.

Current edition approved April June 10, 1996; 2002. Published J August 2002. Originally published as E 1804-96. Last previous edition E 1804-96.
