

Designation: E 1910 – 9700

Standard Test Methods for Agricultural Acidifiers and Basic Blends¹

This standard is issued under the fixed designation E 1910; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 These test methods cover determining if an adjuvant meets the definitions of an acidifier or a basic blend in Terminology E 1519.

1.2 The values stated in both inch-pound and SI units are to be regarded separately as the standard. The values given in parentheses are provided for information only.

1.3 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.*

2. Referenced Documents

2.1 *ASTM Standards:*

¹ These test methods are under the jurisdiction of ASTM Committee E-35 on Pesticides and are the direct responsibility of Subcommittee E35.22 on Pesticide Formulation and Application Systems.

Current edition approved September 10, 1997; 2000. Published January 2001. Originally published as E 1910 – 97. Last previous edition E 1910 – 97.
