

Designation: E 2000 – 9802

Standard Guide for Minimum Basic Education and Training of Individuals Involved in the Detection of Deception (PDD)¹

This standard is issued under the fixed designation E 2000; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This guide covers the minimum basic education and training required for an individual involved in the psychological detection of deception in using instruments which measure physiological responses in the areas of breathing or respiration, changes in electrodermal activity, and changes in pulse rate and relative blood pressure.

1.2 For additional standards promulgated by ASTM Committee, see Practice E 1954.
