

Designation: E 2030 – 9902

An American National Standard

Guide for Recommended Uses of Photoluminescent (Phosphorescent) Safety Markings¹

This standard is issued under the fixed designation E 2030; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This guide describes recommended uses and information on installation of photoluminescent safety markings to supplement emergency lighting. This guide does not establish a standard practice to follow.

1.2 The values stated in SI units are the standard. The values given in parentheses are for information purposes only.

1.3 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.*

2. Referenced Documents

2.1 ASTM Standards:

¹ This guide is under the jurisdiction of ASTM Committee E12 on Color and Appearance and is the direct responsibility of Subcommittee E12.13 on Photoluminescent Safety Markings.

Current edition approved June 10, ~~1999~~, 2002. Published August ~~1~~ 2002. Originally published as E 2030 - 99. Last previous edition E 2030 - 99.
