

Designation: F 3 – 02a

Standard Specification for Nickel Strip for Electron Tubes¹

This standard is issued under the fixed designation F 3; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

- 1.1 This specification covers nickel strip for use as cathodes or other elements in electron tubes.
- 1.2 The values stated in inch-pound units are to be regarded as the standard. The metric equivalents of inch-pound units may be approximate.

2. Referenced Documents

2.1 *ASTM Standards:*

B 162 Specification for Nickel Plate, Sheet, and Strip²

¹ This specification is under the jurisdiction of ASTM Committee F01 on Electronics and is the direct responsibility of Subcommittee F01.03 on Metallic Materials. Current edition approved Jan. Dec. 10, 2002. Published March 2002. February 2003. Originally published as F 3 – 57, approved in 1957. Last previous edition approved in 2002 as F 3 – 9900.
