

Designation: F 693 – 9501

Standard Practice for Sealing Seams of Resilient Sheet Flooring Products by Use of Liquid Seam Sealers¹

This standard is issued under the fixed designation F 693; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This practice covers the instructions and precautions to be observed to ensure satisfactory performance of seams in sheet resilient flooring sealed with liquid seam sealers.

1.2 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.*

2. Referenced Documents

2.1 *ASTM Standards:*

¹ This practice is under the jurisdiction of ASTM Committee F-6 F06 on Resilient Floor Coverings and is the direct responsibility of Subcommittee F06.40 on ~~Special Properties-Practices~~.

Current edition approved Feb. 15, 1995; March 10, 2001. Published April 1995; 2001. Originally published as F 693-80. Last previous edition F 693-84 (1990) ~~ε1~~, F 693-95.
