

Designation: F 1197 — 89 (Reapproved 2000) 1197 – 00

An American National Standard

Standard Specification for Sliding Watertight Door Control Systems¹

This standard is issued under the fixed designation F 1197; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This specification covers the design, manufacture, and testing of controls and operating mechanisms for use with sliding watertight doors meeting the requirements of Specification F 1196.

1.2 The values stated in inch-pound units are to be regarded as standard. The values given in parentheses are for information only.

2. Referenced Documents

2.1 *ASTM Standards:*

A 312/A 312M Specification for Seamless and Welded Austenitic Stainless Steel Pipes²

¹ This specification is under the jurisdiction of Committee F25 on Ships and Marine Technology and is the direct responsibility of Subcommittee F25.03 on Outfitting. Current edition approved Jan. 18, 1989; Dec. 10, 2000. Published May 1, 2001. Originally published as F 1197 – 89 (Reapproved 2000). Last previous edition F 1197 – 89 (Reapproved 2000).
