

Designation: F 1419 – 9200

## Standard Guide for Training the Emergency Medical Technician (Basic) To Manage Shock<sup>1</sup>

This standard is issued under the fixed designation F 1419; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

### 1. Scope

1.1 This guide establishes the minimum national standard for training in the management of shock in patients of all ages by the emergency medical technician (basic).

1.2 This guide is one of a series which together describe the minimum training standard for the emergency medical technician (basic).

1.3 *This standard does not purport to address all of the safety problems, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.*
