

Designation: F 1420 – 9201

Standard Guide for Training the Emergency Medical Technician (Basic) to Perform Patient Management Techniques¹

This standard is issued under the fixed designation F 1420; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This guide establishes the minimum national standard for training the emergency medical technician (basic) to perform patient management techniques for patients of all ages.

1.2 This guide is one of a series which together describe the minimum training standard for the emergency medical technician (basic).

1.3 *This standard does not purport to address all of the safety ~~problems~~, concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.*
