

Designation: F 1465 – 9903

Standard Guide for Selection of Operational Security Control Systems¹

This standard is issued under the fixed designation F 1465; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This guide covers the identification of issues and decisions that need to be addressed to meet the objective of specifying an operational security control system for a detention facility.

1.2 Appendix X1 contains additional sources of information that may be useful to the user of this guide.

1.3 *This standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.*

2. Referenced Documents

2.1 *ASTM Standards:*

¹ This guide is under the jurisdiction of ASTM Committee F33 on Detention and Correctional Facilities and is the direct responsibility of Subcommittee F33.06 on Operational Control Systems.

Current edition approved Jan. 10, 1999; 2003. Published May 1999; September 2003. Originally published as F 1465 – 93; approved in 1993. Last previous edition approved in 1999 as F 1465 – 959.
