

Designation: **F 1662 — 95 (Reapproved 2002) 1662 – 03**

Standard Test Method for Verifying the Specified Dielectric Withstand Voltage and Determining the Dielectric Breakdown Voltage of a Membrane Switch¹

This standard is issued under the fixed designation F 1662; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval.

1. Scope

1.1 This test method covers the verification of a specified dielectric withstand voltage or dielectric breakdown voltage of a membrane switch.

¹ This test method is under the jurisdiction of ASTM Committee F01 on Electronics and is the direct responsibility of Subcommittee F01.18 on Membrane Switches. Current edition approved ~~Nov. June 10, 1995~~, 2003. Published ~~July~~ August 2003. Originally approved in 1995 as F 1662-95. Last previous edition approved in 1995 as F 1662-95(02).
